RE: Designation of Liaison

Dear Ms. Rajchel,

Pursuant to Resolutions 9 from the 1st meeting of ISO/IEC JTC 1/SWG 5 – *Internet of Things*, SWG 5 formally requests the establishment of a Category C external liaison relationship with CEN TC 225/IoT Working Group, whose chair is Richard Rees (UK).

The rationale for such liaison is that the scope of the CEN TC 225/IoT Working Group is to coordinate the CEN work on the "Internet of Things".

The work of CEN TC 255 nicely parallels the work of SWG 5 and fulfils Element #5 of the SWG 5 *Terms of Reference* [Resolution 20/j1nj1N11453: *Establishment of SWG on Internet of Things (IoT)]*

5. *Facilitate the coordination of JTC 1 IoT activities with IEC, ISO, ITU and other organizations that are developing standards for IoT;*

The proposed liaison representatives from JTC 1/SWG 5 is:

Detlef Tenhagen
