Andy,

Ad Hoc 3 telecon is on April 29, 9AM, EDT (New York time). It is NOT on April 18.

When I referred to Ad Hoc 3, I meant to say they did not go through the doodle process you had suggested. That's all!

I hope this clears any confusion remaining. I am sorry to be the main contributor for the confusion.

Best Regards,
Nader

Subject: Re: Updated SWG 5 Ad Hoc 1 Meeting

Now I'm more confused than ever - my diary doesn't have an AH3 meeting on 18th at atll - I think some of the emails arrived out of sequence.

I'm wondering if the SWG5 chair would be able to clear up all the confusion by sending *one* mail which summarises what ADHOC meetings are when and if possible the webex URL's

btw: confusion is inherent, it always arises - something like increasing entropy I think.

andy
