This letter concerns the standard for providing security for data access on removable hard disk memory cards and the above-referenced application filed by IBM.

In the event the proposed standard is adopted and the standard cannot be practiced without the use of the issued patent which is now or hereafter owned or controlled by IBM, IBM agrees upon request to grant a nonexclusive license under such patent on a nondiscriminatory basis and on reasonable terms and conditions including its then current royalty rates and provided a similar grant under licensee's patents within the scope of the license granted to licensee is made available upon request to IBM.

Sincerely yours,

D. Bensimon  
Senior Engineer
