Subject: Report for the 2021 Five-Year Maintenance of INCITS Standards

Due Date: Recommendations Due April 1, 2021

Action: In accordance with ANSI and INCITS policy, action must be taken during the four-year anniversary of a standard's approval date to reaffirm, stabilize or withdraw the standard. Five-year maintenance actions should be completed before the end of the fifth year.

The complete list of standards requiring action is appended below. The INCITS Secretariat has established action items for each committee noted above.

TC officers should identify the standards that pertain to their committee and submit their approved recommendations to the INCITS Secretariat. This review may include providing recommendations on any associated amendments and corrigenda in the event you want related projects on the same review cycle.

The options for processing are:

- **Reaffirmation**
- **Withdrawal** (requires rationale for the action)
- **Stabilization** (does not apply to technical reports)

Reference the [INCITS Procedures](#) for specific requirements that may be necessary when selecting one of the above options.

If a recommendation is not forthcoming from the technical committee, the INCITS Executive Board may make a recommendation on the project without the benefit of committee input at their April 14, 2021 meeting.
