

National Maintenance Review Motions, 2021 (T11-2021-00008-v000)

The T11 community was informed of the 2021 National Maintenance review by INCITS at the December 2020 T11 plenary meeting. I propose that the following standards/technical reports be either stabilized, reaffirmed, or withdrawn according to the following motions.

Motion 1: Steve Wilson (Broadcom) moves and TBD seconds to recommend to INCITS that the following standard be recommended for Stabilization (2/3 Meeting). The rationale for stabilization is that the standards have ongoing validity and effectiveness, but they are mature and unlikely to require maintenance of any sort.
