Consumer Product*

Metric  
Unit of Measure*

☐ Yes  ☐ No
Revises a previous PINS submittal?*

Fibre Channel Extended Link Services provide an invaluable service for management and control of Fibre Channel systems. This project proposal recommends the development of additional and enhanced Extended Link Services functions to the Extended Link Services defined in the FC-LS-4 standard. The specific goals of the FC-LS-5 standard are to a) specify new ELSs for Fabric congestion detection and avoidance; and b) specify new and/or amended Link Services as required.
