

WEBINAR

Unlocking the Power of AI Management Systems: A Workshop on ISO/IEC 42001

Responsible AI is a job for everyone. In this workshop, you'll learn how to use the recently published ISO/IEC 42001 AI Management System standard to organize and document the efforts necessary to realize responsible AI and meet the growing body of regulatory requirements. ITI President and CEO Jason Oxman will provide opening remarks.

AI/Product Security & Privacy Regulatory compliance
