INCITS
C/o Information Technology Industry Council
1101 K Street NW #610
Washington DC 20005

To Whom It May Concern,

Pursuant to the INCITS preliminary copyright policy (INCITS/RD-1, Policies and Guidelines) ActivIdentity grants to ITI on behalf of INCITS a non-exclusive, royalty free license to reproduce, distribute, display, perform and create derivative works of the submission described below for use in the INCITS standards development process (including international standards development efforts in ISO/IEC/JTC 1, its Subcommittees and Working Groups) for the purpose of developing and publishing draft or final versions of an INCITS or ISO/IEC specification.

Description of Submitted Works from ActivIdentity:

1. Open Protocol for Access Control Identification and Ticketing with privacy Specifications, Version 3.4, dated May 28th 2010

The ActivIdentity document, "Open Protocol for Access Control Identification and Ticketing with privacy Specifications, Version 3.4, dated May 28th 2010", has been conveyed to the INCITS/B10.12 Task Group in electronic form via submission as comments to the Generic Identity Command Set, Part One working document.

Sincerely,

Eric Le Saint

Director of Research and Security
