Re: *Licensing Statement for T10 Standards*

Dear Mr. Lohmeyer:

ClariPhy Communications, Inc. has been made aware that it owns patents and/or pending patent applications which may relate to the subject matter of the SAS 2 and SAS 2.1 standards, either under development or already published.

If SAS 2 and/or SAS2.1 is adopted as an ANSI standard, and if any ClariPhy-owned patents and/or patent applications contain claims that are required for practicing the adopted SAS 2 or SAS 2.1 standard, ClariPhy is prepared to offer a non-exclusive license for such patents and patent applications to the extent required to implement the adopted standard under reasonable, non-discriminatory terms and conditions with reciprocity.

Any questions regarding this policy or the involved patents and/or applications should be directed to me at (949) 861-3074, Ext. 203 or norm.swenson@clariphy.com

Regards,

A handwritten signature in blue ink, appearing to read "Norman L. Swenson". The signature is fluid and cursive, with a large initial "N" and "S".
