Re: Licensing Statement for T11 Standards

Dear Mr. Snively:

ClariPhy Communications Inc. is participating in the development of the FC-PI-4 standard. ClariPhy may own patents and/or pending patent applications which may relate to the subject matter of the proposed FC-PI-4 standard.

If FC-PI-4 is adopted as an ANSI standard, and if any ClariPhy-owned patents and/or patent applications contain claims that are required for practicing the adopted FC-PI-4 standard, ClariPhy is prepared to offer a non-exclusive license for such patents and patent applications to the extent required to implement the adopted standard under reasonable, non-discriminatory terms and conditions with reciprocity.

Any questions regarding this policy or the involved patents and/or applications should be directed to me.

Regards,
