3 Presentations

3.1 128GFC MRD, 12-515V0

The MRD was discussed and what affect it will have on FC-PI-6 and FC-FS-4 introduction. There was discussion about how substrates will be utilized . The discussion on the call was that you can run 128GFC or you can run 16GFC or 32GFC on any of the four lanes.

There was also discussion about how optical power might have to change from a SFP application to a QSFP application.

4 Review action items

Contact optical experts and ask how adding a QSFP multi-lane variant will affect the existing FC-PI-6 document. Dean Wallace, QLogic

Presentation at the next joint meeting to help clarify 128GFC MRD requirements. Scott Kipp, Brocade.

12 Next meeting schedule

No additional interim meetings scheduled at this point
