3. Approval of Agenda

The motion to approve the agenda was made by Bill Martin, Emulex and approved by acclimation.

4. Document distribution

This section describes the availability of draft documents that are intended to be published as a result of work by the electrical working group.

Document distribution is now being done over the web. Documents relating to the electrical working group work can be found on the T11 website (www.t11.org) by going to “documents” and searching on the key word electrical.

A summary of the presently active policy to document distribution is included for reference.

All presentations are posted electronically at the approved ftp within two weeks after the meeting. Format must be an approved electronic file format.

Presentations are defined as material shown publicly in the plenary or authorized working group meetings.

Submission of documents for T11 document numbers: An online system is now available to provide document numbers and accept the submission of documents. The system is accessed via the T11 web page at <http://www.t11.org>. Follow the “docs” link in the left hand frame, or at the bottom, and fill in a form giving details of the document. In order to complete the form, it will be necessary to enter a password. The password is given out at T11 meetings, or can be obtained from the T11 chair. Instructions will then be given about uploading the file to the ftp site.

We now use all electronic document distribution.

A T11.2 reflector is operational over the T11 site.

The committee forms its agenda by the following:

1. A call (reminder) for presentations by the chair three weeks in advance.
2. Those wanting to be on the agenda submit request including; title, presenter, time required, abstract.
3. Chair creates an agenda and posts two weeks before the meeting.
4. At the meeting it is the chair’s discretion to allow additional presentations.

5 Review minutes of previous meeting and review of minutes from interim meeting

Motion to approve October meeting minutes, Bill Martin, Emulex moved to approve minutes, group approved by acclimation.

6 Review old action items

Craig to get Adam Healey to review the times used in the document 12-073v3. closed

Dean to make stripping overview presentation. Carry over

7 Call for patents

The chair showed the slides for the patent policy in document 08-406v0. The presentation is also on the USB stick that was distributed.

8 Liaison Reports

There were no liaison reports.

9 Presentations

9.1 32GFC Forward Error Correction (FEC) proposal, Adam Healey, LSI 12-488V0

The proposed flow for 32GFC FEC was reviewed. Differences between Ethernet and 32GFC were identified. The corresponding clauses in 802.3bj that need porting into FC-FS-4 were identified. A method for rapid code word synchronization for FC-EE was also identified. The scrambler bypass is very useful for obtaining rapid code word synchronization.

Adam will work with Bill Martin to put the information in a form that can be ported into FC-FS-4.

9.2 128GFC MRD, Skip Jones, QLogic, 12-515v0

Skip reviewed the MRD for 128GFC. The group will look over the proposal and come back with questions.

10 Project Review

There was no project review.

11 Review action items

Work on putting the FEC information in a form that is compatible with the FC documents, Bill Martin, Emulex, Adam Healey, LSI carry over
