

T11 Web/FTP Status 4/2013

Roger Cummings

T11 Webmaster

questions@mail.t11.org

Web/FTP Status

- System has been up since it rebooted on March 2, 2013
 - Don't know why that happened – it wasn't me.
- Uptime 39 days as of yesterday

Web/FTP statistics

- Web statistics
 - Peak load this week (25 simultaneous users, 80 trans/min) on Monday @ 2pm
 - Total of 1981 transactions since boot
- FTP statistics 118K sessions, 17 GB down, 6K up since 3/2

Status

- No changes made subsequent to Palm Springs
- Have received no feedback about the new menu system
 - Would be interested in any comments that people have

Changes still to be made

- Insert the menu into form displays and remove buttons
- Fix the Guest Home page to remove the left hand menu
 - Will not have the full top menu on the home page, but a smaller number of relevant links
- Agenda & minutes form changes

Issue

- Issue discovered with membership DB
 - DB still has Alternates & Additional Alternates
 - Even though both are just listed as A in the lists
 - Each membership must have (only) one Alternate (and 0-n Additional Alternates)
 - And if you select two Alternates when making changes the listing becomes incorrect
 - Web Site should prevent this but doesn't at the moment
- Thanks to Tom Palkert for reporting this

Tickets

- 1 new ticket submitted & remains to be addressed
- Only 2 tickets remain in progress

Web Site Help

- Top level Help page at:
 - <http://www.t11.org/help.html>
 - Also “Help” link in the navigation frame
- Contains links to tutorial, user guide and the OCLC article about the web site

Addresses for Reporting Problems

- Server problems (web or ftp sites down etc.)
 - questions@mail.t11.org
- Mail Reflector problems
 - mailmaster@mail.t11.org
- All other problems, please fill out a ticket
 - See the last paragraph of the “center” page
 - <http://www.t11.org/t11/docreg.nsf/v2center>
