Dear Rachel,

Please find attached the draft of "Single Byte Command Code Sets Mapping Protocol 5 (FC-SB-5)" revision 2.0. The standard is being forwarded for first public review and for further processing.

At the T11 plenary in Lake Placid, NY on June 7, 2012, Craig Carlson (Qlogic), the TG 11.3 chair requested the T11 Chair to perform a Letter Ballot for approval of forwarding Revision 1.00 of FC-SB-5, INCITS BSR 485 (Project 2245-D), to INCITS for first public review when the document is available. The T11 Chair accepted.

The letter ballot was subsequently performed and completed. The letter ballot document, T11/12-271v0, is enclosed for reference. The letter ballot was completed on August 9, 2012. The vote carried with 24 in favor, 2 opposed, 3 abstaining, and 2 not voting. Two affirmative ballots contained comments. This vote met the two-thirds rule. The result of this ballot is available online from <http://www.t11.org> by following "Ballots" and "Closed Ballots" links and is also attached below for your convenience.

After resolving all the comments presented in response to the letter ballot, the members previously opposed, EMC and Emulex were contacted by telephone, e-mail, or in person. These members indicated that they were satisfied with the comment resolution and would change their vote from opposed to in favor, as documented in the minutes of the T11 plenary meeting in Albuquerque NM, on April 11, 2013.

At the T11 plenary meeting in Albuquerque, NM, on April 11, 2013, Craig Carlson (Qlogic) moved and Dave Peterson (Brocade) seconded to accept T11/13-071v1 and T11/13-075v1 as the resolution of the letter ballot comments on FC-SB-5 and forward Revision 2.0 of FC-SB-5 (T11/13-117v0), INCITS BSR 485, to INCITS for further processing including public review. INCITS RD-2 requires approval of this question in accord with the 2/3 rule, as determined by a meeting show of hands vote. The motion met the 2/3 rule, with 19 Favoring, 0 Opposing, 0 Abstaining, 9 Not Voting.

These actions are documented in the minutes of the April 2013 T11 plenary meeting, T11/13-177v0, subclause 11.2.1. This item was posted on the proposed agenda for the April 2013 meeting, T11/13-108v1.

Lists of the members of T11 and T11.3 who approved this standard are enclosed for your reference.

The source files for this document are enclosed in a separate e-mail.

Could you please take the appropriate steps for performing first public review and further processing of the standard?

Thank you for your assistance in this matter.

Regards,

Steven Wilson
Chairman, TC T11
