

## **MEMBERSHIP IN TC T11 & TGs T11.1 & T11.2**

- ! Membership open to organizations directly and materially affected by the scope of T11 that are willing to participate regularly and pay the designated service fee
  - " In order to be in the voting member category, consultant organizations shall have to declare that their participation is not being funded by any organization already having voting membership.
- ! In a “traditional” membership, each organization appoints one Principal representative, may appoint one or more Alternate representatives (no fee for 1<sup>st</sup> alternate)
- ! In 1998 an “organizational” membership is being offered on a trial basis. This allows one Principal representative and unlimited Alternate representatives on the TC and its TGs
- ! Names of all representatives must be designated in writing to both the group Chair and the Secretariat (e-mail OK)
- ! Memberships in the TC (T11) and the TGs are all completely separate EXCEPT:
  - " A TC member organization is not assessed fees for TG memberships

## **PATENTS**

- ! A call is hereby issued for the existence of patents required to implement any & all T11 standards to be disclosed
  - " It is necessary for the holders to agree to license those patents in conformance with the ANSI patent policy if the project on which they read is to proceed
  - " T11 is not involved in this process @ all !
- ! The contact @ ANSI is the General Counsel, Ms. Amy Marasco - (212)642-4954 or [amarasco@ansi.org](mailto:amarasco@ansi.org)
- ! Patent policy description @ [www.ansi.org/proctbl.html](http://www.ansi.org/proctbl.html), section 1.2.11
- ! IBM has declared that it has patents which apply to the practice of FC & SBCON. The contact is:

Mr. Walter Willigan, IBM Corp., 500 Columbus Ave., Thornwood, N.Y. 10594

## **OFFICER APPOINTMENTS**

  - " T11.3 - Rich Taborek (G2 Networks) as Chair & Jeff Stai (Brocade Communications) as Vice Chair
  - " T11.4 - Ed Lee of EMF Associates as Chair

## **FTP AND WEB SITES FOR T11**

- ! Recently the long-dormant "members only" link from the T11 home page came to life. Links now provided to:
  - " Online document register with a twistie-driven display starting from years and hundreds of documents, and with a button to submit a document for numbering
  - " Online people database a twistie-driven display starting from the initial letter of the surname, and with a button to change address and other details
  - " Online ballot database to support web balloting
  - " Online meeting database with buttons to create ad hoc meeting notice and plenary week meeting announcements
- ! All of the above is interlinked to support "instant" updates without any administrative overhead
- ! Will start over the next two months to drive the rest of the web page from the databases as well

## **FTP AND WEB SITES FOR T11**

- ! Thanks to all of those people who have struggled through the lousy ergonomics of the present forms:
  - " All feedback is being considered, and things will get better as I learn more about the system
- ! The ability to change a "person record" will be online on 2/13 with a caveat:
  - " When you go into edit mode an authorization window will appear and ask you to enter a User Id and password. The user ID will be t11member/DPT with the usual password. You will also have to enter the invoice number on the form to complete the edit.
  - " This is not me getting paranoid, it is a bug in the database template which we are working on fixing.
- ! The password for t11member will change on 2/20 to the present location as one word with no space
  - " You MUST use this User ID & password combination to upload to /t11/member/incoming (even if you have another ID on the ftp machine)

## **FTP AND WEB SITES FOR T11**

- ! Some people have been having problems uploading to a non-anonymous directory. Here is the current state of my knowledge:
  - " Internet Explorer does not seem to support uploads
  - " Netscape products Rev 2.0 Navigator and later can work if your firewall is configured to allow it and you use the URL:
    - `ftp://t11member@ftp.t11.org/t11/member/incoming`
    - If the above works, you should be prompted for a password. If you are not, it will not work
  - " For people using graphical FTP clients, please make sure to deselect anonymous login and enter both the user ID and the password (some clients fill in "guest@" if you do not put in the password, and that will NOT give you write privileges)
  - " For Windows95 users, you have a command line ftp client which will work assuming your firewall will allow you to source ftp traffic. Go to an MS-DOS prompt and do as per the next page
