

National Maintenance Review Motions, 2018 (T11-2018-00080-v000)

The T11 community was informed of the 2018 National Maintenance review by INCITS via a group action item on February 12, 2018 (eb-2018-00080). I propose that the following standards/technical reports be either stabilized, reaffirmed, or withdrawn according to the following motions.

Motion 1: Steve Wilson (Broadcom) moves and TBD seconds to recommend to INCITS that the following standards be recommended for Stabilization (2/3 Meeting). The rationale for stabilization is that the standards have ongoing validity and effectiveness, but they are mature and unlikely to require maintenance of any sort.
